SKILLS

React.js

TypeScript

JavaScript (ES6+)

Next.js

HTML5

CSS3

Tailwind CSS

Node.js

MVC Architecture

REST APIs

Routing

Middleware

Modular Application Structure

Component-based architecture

Frontend refactoring

SUMMARY

Front-End Developer with experience in React, TypeScript, and MVC-based architecture. Focused on building reliable, scalable front-end systems with clean structure and efficient API integration.

Passionate about performance, maintainability, and delivering production-ready user interfaces that align with backend services.

EXPERIENCE

Frontend Developer, Gjirafa Inc.

Prishtinë

Oct 2024 - Current

Designed and implemented modular front-end architecture using React and TypeScript, with a focus on reusable components and scalable UI systems. Delivered multiple feature modules including structured documentation interfaces and template-based systems. Improved code maintainability through MVC-inspired organization and consistent design patterns. Integrated REST APIs and collaborated with backend services to deliver dynamic, production-ready web applications.

EDUCATION

UBT, Bachelor's Degree

Prishtinë

2021 - 2024

Studied core principles of computer science and software engineering, including algorithms, data structures, databases, and software development methodologies. Gained hands-on experience in building web-based applications and understanding system design fundamentals. Developed strong problem-solving skills and practical knowledge of modern programming concepts and software architecture.

LIFE from Gjirafa, Fellow

Prishtinë

2023 - 2024

Participated in a structured fellowship program focused on real-world software development and collaboration within a professional engineering environment. Contributed to building and improving web-based features while gaining hands-on experience with team workflows, code quality standards, and agile development practices. Strengthened skills in front-end development, problem-solving, and working within production-oriented systems.
